

Associate/Full Professor Position for a Forensic/Toxicology Chemist

The Department of Chemistry at the University of North Texas seeks a candidate for a faculty position at the Associate or Full Professor level. The candidate must hold a Ph.D. in chemistry. Post-doctoral experience is preferred. The successful candidate is expected to establish a strong, nationally recognized research program that will attract major extramural funding in their respective area of expertise and will be allocated competitive start-up funds. The candidate should also have the ability to teach graduate and undergraduate courses in their field of specialization. The specific areas of research are open, but preference will be given to candidates having research interests that add to and complement the Department's Forensic program.

The UNT Chemistry Department is undergoing a period of significant expansion in personnel and graduate research capabilities. In addition, multidisciplinary research opportunities exist in collaboration with faculty from multiple departments within the College of Arts and Sciences and the newly established College of Engineering. Present hires are part of a University-wide effort to solidify UNT's national reputation as a research institution.

For additional information or to be considered for the position, please contact Dr. Teresa D. Golden (ChemFacSearch@unt.edu), Chair, Senior Faculty Search Committee, Department of Chemistry, P.O. Box 305070, University of North Texas, Denton, TX 76203. Applications should include a cover letter describing qualifications, a curriculum vitae, and a narrative of research plans. Applicants should also arrange for three letters of recommendation to be sent to the committee chair.

UNT is a Class I – Doctorate Granting Institution on the north side of the Dallas-Fort Worth Metroplex. It is the largest, most comprehensive university in the Metroplex and is the fourth largest university in Texas with over 33,000 students. UNT is an AA/ADA/EOE institution. Women and minority candidates are strongly encouraged to apply. Review of applicants will begin immediately and continue until the positions are filled.
